Available in white, navy, and grey colorways

MOUNTING

Clusters are mounted flush with your wall at no extra cost. Offset mounting is available for an additional cost of \$100 per module.

POUFFE: /poōf/: derived from the French word *bouffer* - "to puff"

These modular sculptural installations explore the natural qualities of hot glass. Each piece is shaped with careful intention and control while exploiting the fluidity of molten glass. The surface of each piece is sandblasted and acid etched to produce a silky glow that emanates from its soft surface.
